Association of American Directory Publishers is composed of reputable City Directory Publishers organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business, or owner and publisher of a City Directory in the United States or Canada, who shall qualify to gather information and compile a City Directory with satisfactory references, is eligible to membership.

The objects of the Association are:

First, the advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second, to provide *protection* to the public against *fraudulent schemes which operate under the name of Directories*, and to drive out the unprincipled promoters of the same out of business.

Third, to provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth, to secure the mutual protection and advancement of the respective interests of all who may become members, by the advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.
